## Merchant Cash Advance

With 90% of small businesses being turned down for loans, merchants have become stranded without the capital they need to grow their business. Those unwilling to accept this lack of funding as the new status quo turn to Cash Advances. By partnering your merchant services with a merchant cash advance, you can have access to funds using working capital.

## How a Cash Advance Works

Our program is simple: We pay you in advance for a portion of your future sales. As customers pay you, your advance is paid back with a flexible repayment process depending on your sales volume daily and an ACH debit from your bank account.
